

Community Center Update – Fall 2012
Melissa Weldon, Coordinator (440) 449-5011

Located in Lyndhurst Park, behind City Hall, the Lyndhurst Community Center is the ideal setting for your next family gathering. Because we have multiple rooms, the Community Center can accommodate functions in various sizes, sizes from the small intimate gathering to larger parties and receptions. So, whether you are planning to celebrate a birth, a graduation, a wedding or a life well lived; we have just the room(s) for your needs. Call us... we will set up a time for you to come in tour our beautiful facility, discuss your plans, and look at some options.

Fall means many things including back to school and the beginning of another FLU session... so, keep in mind that the Cuyahoga County Board of Health hosts an **Immunization Clinic** in the Community Center most Thursdays, throughout the year. The clinic is able to provide you and your families, young and old with the same vaccines offered at your doctor's office on an appointment basis. Because the vaccines are brought in by the nurses when they come for a clinic, and they only bring what they will use that day, our location is unable to accommodate WALK-INS. For more call, the Cuyahoga County Board of Health at (216) 201-2001 or leave a detailed on the appointment line (216) 201 2041 and a nurse will call you back. .

The Community Center continues to collect your old cell phones, IPods ,MP3 players and digital cameras as a fundraiser benefitting the American Cancer Society. Items may be dropped off to the Community Center anytime this is an ongoing program. It is requested that the items be intact but do NOT have to work. Chargers are accepted but NOT necessary.

Save the Date –
