

From The Police Department

As outdoor activities pick up, motorists are reminded to watch for increased bicycle and pedestrian traffic, particularly at intersections and when exiting residential or business drives. Bicyclists are reminded to wear helmets and obey traffic laws.

Also remember to help keep the streets safe for our road workers and safety personnel. Slow down in construction and service areas and when you pass police officers or firefighters doing their job.

As you start your outdoor projects, this is a good time to make sure your address numbers are clearly visible from the street, especially at night. Addresses and business names on the back doors of commercial locations are very helpful.
