

Next Module Scheduled in Home Repair Course for Women

The “**Electrical Repairs**” module in Home Repair Resource Center’s women’s repair series will begin on September 5th, with weekly sessions on Wednesday evenings through October 24th. Eight two-hour classes will be offered on Intro to Electricity; Replacing Switches & Outlets; Running a New Circuit; Practical Troubleshooting; Lighting Options; Low-Voltage Systems (Landscape Lighting/Doorbells/Phone Lines); Ceiling Fans; and Exhaust Fans for Kitchens & Baths. Participants will benefit from personal attention and “hands-on” experience in a supportive and nurturing atmosphere, with opportunities to practice tool use and repair techniques. Absolutely no previous experience is required!

The four modules in the Home How-To for Women course can be taken in sequence or individually. Each module is limited to 18 women. The program is open to all Northeastern Ohio homeowners. Tuition is \$120 per module for Cleveland Heights residents and \$150 for non-residents, with reduced rates for low-income Cleveland Heights residents.

Applications are now being accepted. For more information, interested women can go to <http://www.hrrc-ch.org/programs/home-how-to-for-women> or call Becky Stager at (216) 381-6100, ext. 16.
