Home Remodeling Fair Scheduled for April 11th

Cleveland Heights, March 10, 2015

Home Repair Resource Center, the Cleveland Heights nonprofit, will offer its annual Home Remodeling Fair on Saturday, April 11th, from 9:30 am to 1:30 pm at Cleveland Heights City Hall, 40 Severance Circle. This free event will provide information on many home repair and remodeling tasks, especially “big ticket” projects where it is particularly important to make wise decisions. Residents of all communities are welcome.

The Fair will feature “**Ask an Expert**” advice tables, where professionals from many repair specialties will answer questions and give advice. In addition, representatives from local banks, community organizations, and the City of Cleveland Heights will be available to discuss how their services can help homeowners complete renovation projects.

The Fair will also include several free workshops: “**Electrical Systems in Older Homes: Risks, Myths, and When to Update,**” with home inspector Jim Nemastil of Nemastil, Inc. and electrician Eliot Watts of BBC Electric; “**Residential Storm Water Management: Landscaping Your Way to a Drier Basement,**” with Jeff Jowett of the Northeast Ohio Regional Sewer District; and “**Bringing Your Home into the 21st Century: Pros & Cons of Smart Home Technology,**” with Ben Faller of Home Repair Resource Center and retired security expert Dennis Meltzer.

The Home Remodeling Fair is provided by Home Repair Resource Center in cooperation with the City of Cleveland Heights. Further information is available on HRRC’s website, www.hrrc-ch.org, or by calling (216) 381-6100.
